

Bankruptcy Information

Chapter 7 and Chapter 13 records gathered electronically from bankruptcy courts across the country everyday

The CoreLogic® Teletrack™ database of consumer bankruptcy court records can provide you with a powerful data element to be used for risk assessment. Working as an add-on to your Teletrack service or through electronic batch processing, our bankruptcy information provides you with a powerful tool to help increase payment predictability. A Teletrack bankruptcy report informs you of critical applicant information, including:

- ▶ Court - Indicates the court of filing
- ▶ Case Number - Returns the number assigned to the case on the court records
- ▶ Chapter Filed - Identifies the filing as a Chapter 7 or Chapter 13
- ▶ Judge/Trustee - Returns the name of the judge assigned to the case or name of court appointed trustee
- ▶ Case Date - Reports the date of the initial petition filing
- ▶ Office - Indicates the divisional office for the case
- ▶ Debtor Name - Reports the name of debtor(s) filing a petition
- ▶ Debtor Address - Lists the address of the debtor(s) at the time of the filing
- ▶ Date Closed - Lists the date that the case was discharged or dismissed
- ▶ Status - Indicates the current status of the case

The innovative use of our data and technologies enables us to electronically gather bankruptcy records nationwide almost immediately after a consumer files. Case status is updated daily to help ensure that you receive the most current information. Our consumer bankruptcy data assists you in your application verification process by validating the information provided by the consumer on the application and providing you with a better assessment of the consumer's current status.

If Teletrack reports that an applicant has filed for bankruptcy protection, you choose your course of action based on your own business rules. There are different risks associated with the type and status of each filing. Regardless of the filing type, CoreLogic Teletrack provides you with all the relevant bankruptcy case details you need to assess an applicant's ability to complete your organization's financing terms. This information helps you to maximize the number of consumers you can serve while mitigating potential for risk.

Bankruptcy Data Includes:

- ▶ First and Last Name
- ▶ Complete Address
- ▶ Date of Filing
- ▶ Location of Filing
- ▶ Chapter Filed
- ▶ Case Number
